PETITION

Isabel Sepulveda, Inc., a registered New York corporation, hereby petitions the Commission to allocate FM Channel 277 (103.3 MHz) to the Hamlet of Water Mill, New York, as its first FM Broadcast allocation.

In support thereof, Petitioner asserts:

- 1) Water Mill, New York is an identifiable geographic entity, with its own ZIPcode (11976), business area, and telephone exchange (631-726-XXX). Its reference coordinates are 40 54 21 North and 72 21 45 West.
- 2) The hamlet is part of Southampton Town Suffolk County, NY.
- 3) The population of Water Mill is 1410 persons (1990 Census)
- 4) A search by Radiosoft, Inc. (attached hereto as Exhibit 1) shows that a number of possible transmitter locations exist which will provide city-grade service to Water Mill while satisfying all Commission spacing requirements to existing facilities.
- 5) The channel is currently occupied by a nearby Class D facility which would be impacted, but which has no standing in this matter as the instant Petition is for a Class A facility. Other channels exist for Class D use in this area.
- 6) Should the Commission allocate Channel 277A to Water Mill or other nearby community, and open a filing window therefor, Petitioner (Isabel Sepulveda, Inc. or an affiliate) will promptly file an application for a Construction Permit for such a facility, and if granted, promptly construct the authorized facility.

Respectfully submitted,

Isabel Sepulveda, Inc.
